# MAKİ

**Murat Erciyas**

“Reminding endless geographies with its design, Maki offers innovative solutions to the working environments of senior executives with its wide range of uses, elaborate details and functional features. While the leather desk positioned on the table reveals the perfect combination of wood and leather, it reveals a modern and stylish look; electrification and accessory compartments create orderly and efficient working areas by eliminating cable confusion in the working dynamics.”

Reminding endless geographies with its design, Maki offers innovative solutions to the working environments of senior executives with its wide range of uses, elaborate details and functional features. While the leather desk positioned on the table reveals the perfect combination of wood and leather, it reveals a modern and stylish look; electrification and accessory compartments create orderly and efficient working areas by eliminating cable confusion in the working dynamics.
